Rogue Traders, Heston

Following a report from residents we would like to make you aware of possible rogue traders operating in Heston.

At 2pm Tuesday 16th June a resident of The Alders was approached by three white men in their 20's. They were driving a white Transit type van. They offered to cut the hedge on the residents drive and asked for £800 to do it. When they were turned away they became very insistent that the hedge needed cutting and tried to pressurize the resident into letting them, do the work.

This is a well known technique by rogue traders. You should never accept the word of traders knocking at your door. Always obtain different quotes from companies you trust. Ask your neighbours if they can recommend anyone and check people out using online reference sites.

If this or similar happens to you can call the police on 101 and report it. If you are being threatened call 999.
